

Recheck of Your Blood Pressure

Doctor's consultation (For Students / Faculty & Staffs)

Your blood pressure is very high (systolic BP **over 160** and / or diastolic BP **over 100**).

→ <Blood pressure measurement>

We recommend that you to see a doctor. Please go to your local doctor's clinic or the Medical Section of the Health Service Center.

The Medical Section of the Health Service Center

(Office hours; 10:00-12:20am and 2:00-3:45pm, workday)

Prior to visiting the medical section, please come to the health service section first to get your health check-up result. We don't have an appointment system, so we may keep you waiting if we have many patients. Please check our website as it may be temporarily closed. (<https://www.hc.u-tokyo.ac.jp/en/guide/>). Actual costs will be charged for laboratory examination and medication.

Nurse counseling recommended (For Students / Faculty & Staffs)

Your blood pressure is high (systolic BP: **140-159** and/or diastolic BP: **90-99**).

→ <Blood pressure measurement>

Please submit your blood pressure self-measurement record to the Health Service Center on the following date and time.

Time: 9:30 - 12:00 am , 2:30 - 4:00 pm

Health Service Center: Hongo, Komaba, Kashiwa

*Only those who belong to offices in Hongo, Komaba, and Kashiwa are eligible for faculty and staffs. If you belong to the Institute of Medical Science or the University of Tokyo Hospital, please report directly to each office.

About measurement method

Check your blood pressure by yourself and record it on this paper, bring the record on your visit.

Daily monitoring of blood pressure at home will help to evaluate its severity, because blood pressure fluctuates all times.

<Blood pressure measurement>

- Blood pressure monitor: Please use your own blood pressure monitor. If you do not have one, you can use the automated blood pressure monitor at the Health Service Center.
- Notes : please check your blood pressure at rest: don't check one just after exercise or bathing, or under influence of alcohol. Please comment about your symptom or special note for each measurement.
